### PROFILE

Experienced Thesis Advisor with a strong background in the field of environmental science and policy. My career spans over 8 years, during which I have guided numerous students in developing impactful research that addresses pressing environmental issues. I specialize in fostering critical thinking and encouraging interdisciplinary approaches to research. My commitment to student success is reflected in my ability to provide constructive criticism and support throughout the thesis process.

### EXPERIENCE

#### THESIS ADVISOR

##### Green University

2016 - Present

- Guided students in developing thesis topics related to climate change.
- Facilitated research partnerships with local environmental organizations.
- Provided personalized feedback on research proposals and drafts.
- Organized field research opportunities for hands-on learning.
