

MICHAEL ANDERSON

LEAD TIMBER FRAMER

PROFILE

Accomplished timber framer with a robust portfolio spanning over a decade, emphasizing modern timber construction methodologies. Renowned for expertise in blending traditional craftsmanship with contemporary design trends, delivering aesthetically pleasing and structurally sound frameworks. Experience encompasses project management, site supervision, and client relations, ensuring that all projects reflect the highest standards of quality and innovation.

EXPERIENCE

LEAD TIMBER FRAMER

EcoTimber Solutions

2016 - Present

- Directed timber framing operations for eco-friendly housing projects, achieving LEED certification.
- Oversaw a crew of framers, ensuring adherence to safety protocols and project timelines.
- Integrated innovative joining techniques to enhance the structural performance of frameworks.
- Managed client expectations through effective communication and design consultations.
- Conducted training workshops on sustainable framing practices for junior staff.
- Collaborated with engineers to resolve design discrepancies efficiently.

TIMBER FRAMER

Craftsman Timber Co.

2014 - 2016

- Executed timber framing for high-end residential properties, focusing on detail-oriented craftsmanship.
- Utilized CAD software to interpret and implement complex design plans.
- Maintained high standards of quality control, reducing rework rates by 15%.
- Coordinated with suppliers to source high-quality timber and materials.
- Evaluated site conditions to optimize framing strategies for varying landscapes.
- Documented progress and challenges during project phases to enhance future planning.
