MANAGEMENT, YALE UNIVERSITY**

ACHIEVEMENTS

- Increased community participation in forestry programs by 40% over two years.
- Restored over 300 acres of degraded forest land through community initiatives.
- Received a Local Hero Award for contributions to community forestry efforts.

Innovative Timber Management Specialist with a strong focus on community-based forestry and participatory management practices. Extensive experience in engaging local communities in sustainable forest management initiatives aimed at enhancing biodiversity and ecosystem services. Proven ability to leverage community knowledge and integrate traditional ecological practices with modern forest management techniques. Skilled in facilitating community workshops and training programs that empower local stakeholders.

WORK EXPERIENCE

COMMUNITY FORESTRY COORDINATOR

Forest Community Alliance

2020 - 2025

- Developed community engagement strategies to promote sustainable forestry.
- Facilitated workshops on forest conservation and management practices.
- Collaborated with local leaders to design community forestry programs.
- Monitored and evaluated the impact of community initiatives on forest health.
- Secured funding for community-led conservation projects.
- Advocated for policies that support community rights in forestry management.

FOREST RESTORATION SPECIALIST

EcoForestry Solutions

2015 - 2020

- Led restoration projects aimed at rehabilitating degraded forest areas.
- Engaged volunteers in tree planting and habitat restoration efforts.
- Utilized community feedback to adapt restoration strategies effectively.
- Collaborated with scientists to assess biodiversity in restored areas.
- Presented project outcomes to funders and stakeholders to secure ongoing support.
- Documented success stories to inspire further community involvement.
