

MICHAEL ANDERSON

Time and Motion Study Engineer

As a dedicated Time and Motion Study Engineer with over 9 years of experience in the construction industry, I have honed my skills in project management and workflow analysis. My background in civil engineering allows me to approach time and motion studies with a unique perspective, focusing on optimizing labor and material use.

WORK EXPERIENCE

Time and Motion Study Engineer 2020-2023

BuildRight Construction

- Conducted time and motion studies on construction sites to optimize labor usage.
- Collaborated with project managers to identify areas for efficiency improvements.
- Implemented new scheduling techniques to reduce project delays.
- Monitored compliance with safety regulations during process changes.
- Developed training materials for on-site staff on best practices.
- Reported on project performance metrics to senior management.

Project Engineer 2019-2020

ConstructCo

- Managed construction projects from inception to completion.
- Analyzed project data to recommend changes for efficiency gains.
- Coordinated with subcontractors to ensure project timelines were met.
- Implemented cost control measures to reduce project expenditures.
- Facilitated team meetings to discuss project progress and challenges.
- Ensured compliance with industry standards and regulations.

ACHIEVEMENTS

- Achieved a 20% reduction in project costs through process optimization.
- Recognized with the Safety Excellence Award for implementing effective safety protocols.
- Improved project delivery timelines by 15% through better scheduling techniques.
