EXPERTISE SKILLS

- Tooling Development
- Materials Engineering
- Project Management
- Cost Analysis
- Quality Assurance
- Team Leadership

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Master of Science in Manufacturing Engineering, Stanford University, 2011

MICHAEL ANDERSON

LEAD TOOLING ENGINEER

Innovative Tooling Engineer with over 10 years of experience in the electronics industry. Expert in designing and developing advanced tooling systems that streamline production processes and enhance product quality. Strong background in material science and manufacturing processes, enabling the creation of tooling solutions that meet diverse production needs. Proven history of collaborating with R&D teams to bring new products to market efficiently.

PROFESSIONAL EXPERIENCE

ElectroTech Enterprises

Mar 2018 - Present

Lead Tooling Engineer

- Directed the design and development of precision tooling for electronic components.
- Implemented design changes that reduced production costs by 25%.
- Collaborated with engineering teams to enhance tooling usability and performance.
- Conducted training for engineering staff on advanced tooling techniques.
- Managed tooling projects from conception through implementation, ensuring timely delivery.
- Analyzed tooling performance data to identify areas for improvement.

Innovative Electronics Inc.

Dec 2015 - Jan 2018

Tooling Engineer

- Designed and tested tooling for high-precision electronic assemblies.
- Improved tooling designs resulting in a 30% reduction in assembly errors.
- Worked closely with quality assurance to ensure compliance with regulatory standards.
- Participated in cross-functional teams to drive product development initiatives.
- Documented tooling specifications and maintenance procedures for future reference.
- Supported the introduction of new technologies to enhance tooling capabilities.

ACHIEVEMENTS

- Developed tooling solutions that resulted in a 40% increase in product quality ratings.
- Awarded 'Employee of the Quarter' for exceptional contributions to tooling projects.
- Successfully led a project that decreased tooling production time by 35%.
