EXPERTISE SKILLS

- civil engineering
- project management
- 3D modeling
- team leadership
- quality assurance
- regulatory compliance

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Bachelor of Science in Civil Engineering, State University, 2008

MICHAEL ANDERSON

CHIEF SURVEYOR

Accomplished Topographic Surveyor with a specialization in civil engineering projects, possessing over 15 years of experience in executing large-scale infrastructure developments. Demonstrated proficiency in utilizing advanced surveying techniques to deliver precise measurements critical to project success. Esteemed for the ability to liaise effectively with contractors, engineers, and regulatory bodies to ensure compliance and quality assurance throughout all phases of construction.

PROFESSIONAL EXPERIENCE

BuildRight Engineering

Mar 2018 - Present

Chief Surveyor

- Oversaw all surveying activities for major civil engineering projects, including highways and bridges.
- Led a team of surveyors, ensuring accurate data collection and adherence to project timelines.
- Utilized 3D modeling software to enhance project visualization and planning.
- Collaborated with project managers to align survey objectives with engineering requirements.
- Monitored and reported on project progress, implementing corrective measures as necessary.
- Developed and maintained relationships with key stakeholders and regulatory agencies.

Urban Development Corp.

Dec 2015 - Jan 2018

Senior Topographic Surveyor

- Conducted topographic surveys for urban infrastructure projects, ensuring compliance with local regulations.
- Utilized total stations and leveling instruments to gather precise site data.
- Produced detailed survey drawings and reports for engineering teams.
- Coordinated with construction teams to resolve survey-related issues on-site.
- Implemented quality control procedures to enhance data accuracy and reliability.
- Provided mentorship to junior team members in surveying techniques and equipment use.

ACHIEVEMENTS

- Spearheaded a project that improved traffic flow by 40% through innovative engineering solutions.
- Achieved a 95% on-time project delivery rate over a five-year period.
- Received the Excellence in Engineering Award for outstanding project contributions in 2020.
