SKILLS

- Environmental toxicology
- Risk assessment
- Data analysis
- Community engagement
- Scientific communication
- Research methodologies

LANGUAGES

- English
- Spanish
- French

EDUCATION

**M.S. IN ENVIRONMENTAL SCIENCE,
UNIVERSITY OF GREEN EARTH**

ACHIEVEMENTS

- Contributed to a project that improved water quality standards, benefiting over 10,000 residents.
- Received recognition for outstanding research contributions to environmental policy.
- Published multiple articles in environmental journals, influencing public awareness of toxicity issues.

WORK EXPERIENCE

ENVIRONMENTAL TOXICOLOGIST

EcoHealth Alliance

2020 - 2025

- Conducted field studies to assess the impact of pollutants on local wildlife and ecosystems.
- Developed risk assessment models to evaluate chemical exposure in various habitats.
- Collaborated with scientists to publish findings in peer-reviewed journals.
- Engaged with community stakeholders to promote awareness of environmental issues.
- Assisted in the development of conservation strategies based on scientific data.
- Presented research at environmental conferences, contributing to policy discussions.

TOXICOLOGIST

National Environmental Agency

2015 - 2020

- Evaluated the environmental impact of industrial pollutants on water quality.
- Conducted laboratory analyses of soil and water samples for contaminant levels.
- Prepared technical reports for regulatory compliance and public dissemination.
- Collaborated with interdisciplinary teams to develop environmental protection initiatives.
- Participated in public hearings to represent scientific perspectives on environmental issues.
- Led workshops to educate local communities on the effects of pollution.
