- French

WORK EXPERIENCE

Traffic Engineer

2020-2023

Sustainable Mobility Solutions

- Developed traffic calming measures that improved safety in residential neighborhoods.
- Conducted traffic surveys to gather data for future planning initiatives.
- Collaborated with city officials on the design of bike lanes and pedestrian pathways.
- Utilized simulation tools to assess the impact of proposed changes.
- Engaged with local community groups to address traffic concerns.
- Prepared reports summarizing findings and recommendations for city planners.

Junior Traffic Analyst

2019-2020

Urban Dynamics

- Assisted in the analysis of traffic data to identify trends and safety issues.
- Supported senior engineers in traffic modeling and simulation projects.
- Participated in public outreach efforts to educate residents on traffic safety.
- Utilized GIS tools to map traffic incidents and propose solutions.
- Maintained accurate project documentation and records.
- Helped prepare presentations for community meetings on traffic initiatives.

ACHIEVEMENTS

- Implemented a neighborhood traffic calming project that reduced speeding by 35%.
- Recognized for outstanding service in community outreach on traffic safety.
- Contributed to a successful grant application for sustainable transportation initiatives.
