WORK EXPERIENCE

Multimodal Transportation Planner

2020-2023

City of Harborview

- Developed multimodal transportation plans integrating public transit, cycling, and pedestrian pathways.
- Conducted community workshops to gather input on transportation needs and preferences.
- Analyzed transportation data to assess the effectiveness of existing transit services.
- Collaborated with environmental groups to promote sustainable transportation initiatives.
- Prepared technical reports and presentations for city council meetings.
- Engaged with local businesses to address transportation-related concerns during construction projects.

Transportation Systems Analyst

2019-2020

Metropolitan Planning Organization

- Conducted comprehensive analyses of regional transportation systems and infrastructure.
- Utilized data modeling techniques to forecast transportation demand and identify trends.
- Collaborated with city planners to ensure cohesive transportation strategies across jurisdictions.
- Engaged with community stakeholders to educate on transportation planning processes.
- Prepared grant applications to secure funding for transportation projects.
- Analyzed the impact of transportation policies on community development and economic growth.

ACHIEVEMENTS

- Led a project that increased public transit ridership by 30% through improved service planning.
- Recipient of the 'Excellence in Transportation Planning' award from the Local Government Association.
- Authored a strategic plan that successfully integrated bike-sharing programs into the city's transit network.
