MICHAEL ANDERSON

FREIGHT DATA ANALYST

Innovative Transport Data Analyst with a distinct focus on leveraging big data analytics to enhance freight and logistics operations. Expertise in utilizing advanced analytical techniques and machine learning algorithms to optimize supply chain performance. Demonstrated ability to transform raw data into actionable insights that drive strategic improvements in transportation efficiency and cost reduction.

PROFESSIONAL EXPERIENCE

Global Logistics Corp

Mar 2018 - Present

Freight Data Analyst

- Analyzed freight movement data to identify bottlenecks and recommend operational improvements.
- Developed machine learning models to predict delivery times with 90% accuracy.
- Collaborated with supply chain teams to enhance data-driven decision-making.
- Utilized advanced visualization tools to present insights to stakeholders.
- Implemented data quality checks that reduced discrepancies by 35%.
- Assisted in the integration of new logistics software for data management.

Innovative Freight Solutions

Dec 2015 - Jan 2018

Data Analyst Intern

- Supported data collection and analysis for logistics optimization projects.
- Conducted market research to identify trends in freight transportation.
- Created reports on shipping performance metrics for senior management.
- Assisted in the development of a KPI dashboard for performance tracking.
- Collaborated with teams to streamline data reporting processes.
- Participated in workshops on data analytics tools and techniques.

ACHIEVEMENTS

- Increased freight delivery efficiency by 20% through data-driven initiatives.
- Developed a predictive model that reduced average delivery times by 15%.
- Recognized as Employee of the Month for outstanding analytical contributions.
