- 📍 San Francisco, CA
- 🌐 www.michaelanderson.com

Detail-oriented transport scheduler with a strong foundation in transportation engineering and operational efficiency. Extensive experience in managing transport logistics for large-scale projects, ensuring adherence to project timelines and budget constraints. Expertise in utilizing scheduling software to enhance operational workflows and improve service delivery. Strong problem-solving skills enable the identification of potential scheduling conflicts and the development of effective solutions.

SKILLS

- Transportation Engineering
- Project Management
- Scheduling Software
- Cost Analysis
- Data Analysis
- Stakeholder Engagement

EDUCATION

MASTER OF SCIENCE IN TRANSPORTATION ENGINEERING, TECHNICAL UNIVERSITY

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Successfully managed transport logistics for projects valued at over $10 million.
- Recognized for excellence in project delivery timelines and budget management.
- Implemented scheduling improvements that increased efficiency by 20%.

EXPERIENCE

PROJECT TRANSPORT SCHEDULER

Infrastructure Development Corp.

2016 - Present

- Coordinated transport schedules for major infrastructure projects, ensuring timely deliveries.
- Utilized advanced scheduling tools to optimize logistics for project needs.
- Collaborated with project managers to align transport schedules with project milestones.
- Monitored logistics operations to identify and resolve scheduling issues.
- Conducted cost analyses to ensure budget adherence for transportation expenses.
- Prepared comprehensive reports detailing transport performance metrics.

TRANSPORT ENGINEER

City Planning Agency

2014 - 2016

- Assisted in the design and planning of transportation systems for urban development.
- Conducted feasibility studies to evaluate transport options.
- Collaborated with engineering teams to ensure alignment of transport plans with infrastructure projects.
- Analyzed transportation data to inform scheduling and planning decisions.
- Facilitated stakeholder meetings to gather input on transportation needs.
- Developed recommendations for improved transport infrastructure.
