

MICHAEL ANDERSON

LOGISTICS ANALYST

PROFILE

Strategic and analytical Transportation Systems Analyst with a strong foundation in logistics and supply chain management. Expertise in optimizing transportation networks through data analysis and operational enhancements. Proven ability to leverage advanced modeling techniques to inform decision-making and drive efficiency. Highly skilled in collaborating with diverse teams to implement transportation solutions that align with organizational objectives.

EXPERIENCE

LOGISTICS ANALYST

FedEx Corporation

2016 - Present

- Analyzed logistics data to identify cost-saving opportunities within transportation operations.
- Developed and maintained performance metrics to assess transportation efficiency.
- Collaborated with internal teams to streamline supply chain processes and reduce lead times.
- Utilized advanced analytics to forecast shipping demands and optimize routing.
- Managed vendor relationships to ensure compliance with service level agreements.
- Prepared comprehensive reports for senior management on logistics performance.

TRANSPORTATION COORDINATOR

XYZ Logistics

2014 - 2016

- Coordinated transportation schedules and managed freight movement across multiple modes.
- Implemented process improvements that enhanced on-time delivery rates by 30%.
- Worked closely with carriers to negotiate favorable rates and terms.
- Conducted risk assessments to mitigate potential disruptions in transportation services.
- Utilized TMS software to monitor shipment progress and resolve issues proactively.
- Developed training materials for new hires on transportation protocols and systems.
