- forest management
- conservation
- project leadership
- ecological assessment
- stakeholder engagement
- public education

LANGUAGES

- English
- Spanish
- French

Experienced Tree Improvement Specialist with a comprehensive background in forest management and conservation. Demonstrates a profound understanding of tree biology and ecology, applying this knowledge to enhance the health and productivity of forest ecosystems. Proven ability to lead forest restoration projects, employing innovative techniques to rehabilitate degraded landscapes. Committed to the principles of sustainable forestry and conservation, ensuring the preservation of biodiversity while meeting the needs of society.

WORK EXPERIENCE

Forest Restoration Manager   2020-2023

Wildwood Conservation

- Led forest restoration projects focused on re-establishing native tree populations.
- Coordinated volunteer efforts for tree planting and habitat restoration.
- Developed management plans for sustainable forest practices.
- Conducted assessments of forest health and biodiversity.
- Engaged with community stakeholders to promote conservation initiatives.
- Published reports on forest restoration outcomes and best practices.

Tree Ecologist   2019-2020

Forest Health Alliance

- Conducted ecological research on tree species adaptation to climate change.
- Analyzed data to inform conservation strategies for endangered tree species.
- Collaborated with scientists to develop restoration techniques for degraded forests.
- Participated in public outreach programs to educate on tree ecology.
- Managed data collection for long-term forest monitoring projects.
- Contributed to scientific publications on forest ecology and management.

ACHIEVEMENTS

- Restored over 500 acres of degraded forestland through targeted initiatives.
- Secured funding for conservation projects totaling $250,000.
- Recognized for outstanding contributions to forest health education.
