

MICHAEL ANDERSON

LEAD TRIM CARPENTER

PROFILE

Accomplished Trim Carpenter specializing in historical restorations and custom woodworking. Extensive experience in reviving and replicating period-appropriate finishes, ensuring authenticity and compliance with preservation standards. Exceptional proficiency in utilizing both traditional hand tools and modern machinery to achieve superior craftsmanship. Adept at coordinating with project managers, clients, and other trades to ensure seamless execution of complex projects.

EXPERIENCE

LEAD TRIM CARPENTER

Heritage Restoration Co.

2016 - Present

- Led a team in restoring historical homes, applying techniques that maintain original architectural features.
- Utilized period-specific materials to ensure authenticity in all restorations.
- Conducted research on historical carpentry methods to enhance project accuracy.
- Managed client expectations through regular updates and consultations, fostering strong relationships.
- Executed intricate molding designs that improved aesthetic appeal and historical accuracy.
- Trained apprentices in traditional woodworking techniques and safety standards.

TRIM CARPENTER

Classic Woodworks

2014 - 2016

- Completed custom trim installations for high-end residential clients, focusing on detail and quality.
- Negotiated contracts with clients, ensuring project feasibility and alignment with budget constraints.
- Developed a library of templates for recurring design elements, streamlining the installation process.
- Maintained an inventory management system that reduced material costs by 10% annually.
- Collaborated with designers to create unique trim profiles that enhanced property value.
- Established a reputation for reliability and quality among local contractors and clients.
