SKILLS

- Pipeline tunneling
- Project management
- Environmental compliance
- Geological assessments
- Team leadership
- Safety training

LANGUAGES

- English
- Spanish
- French

EDUCATION

**MASTER OF SCIENCE IN GEOLOGICAL
ENGINEERING, TEXAS A&M
UNIVERSITY, 2011**

ACHIEVEMENTS

- Recognized for leading a high-profile pipeline project that received industry accolades for safety and efficiency.
- Developed a training program that improved safety compliance among tunneling crews by 30%.
- Authored several technical papers on tunneling practices for energy projects, contributing to industry knowledge.

WORK EXPERIENCE

TUNNEL ENGINEERING MANAGER

PetroTunnel Services
2020 - 2025

- Directed all tunneling operations for a 50 km pipeline project in a challenging terrain.
- Ensured compliance with environmental standards, resulting in no violations during construction.
- Oversaw budgeting and resource allocation for multiple projects simultaneously.
- Trained and mentored junior engineers in tunneling techniques and safety protocols.
- Collaborated with geologists to optimize tunnel alignment based on geological surveys.
- Presented project progress to executive leadership and made recommendations for improvements.

TUNNEL ENGINEER

Energy Pipeline Solutions
2015 - 2020

- Contributed to the successful completion of a major natural gas tunnel project, focusing on excavation and safety.
- Conducted geological assessments to inform tunneling strategies and minimize risks.
- Participated in project planning and scheduling, ensuring milestones were met.
- Maintained detailed project documentation for compliance and audits.
- Engaged with local communities to address concerns about environmental impact.
- Utilized specialized tunneling software to enhance project efficiency.
