San Francisco, CA

EDUCATION

Bachelor of Science in Information Systems

FinTech University
2017

SKILLS

- TypeScript
- React
- Node.js
- Angular
- Financial Regulations
- Data Security

LANGUAGES

- English
- Spanish
- French

Talented TypeScript Developer with a keen interest in the fintech industry. Over 4 years of experience in developing secure and efficient financial applications. Skilled in using TypeScript alongside various frameworks to create robust solutions that comply with regulatory standards. Strong analytical skills and attention to detail, ensuring accuracy and reliability in all projects.

💼 WORK EXPERIENCE

TypeScript Developer   2020-2023

FinTech Innovations

- Developed secure financial applications utilizing TypeScript, React, and Node.js.
- Ensured compliance with financial regulations through thorough testing and validation processes.
- Collaborated with product managers to translate business requirements into technical solutions.
- Implemented encryption methodologies to protect sensitive user data.
- Conducted code reviews and provided mentorship to junior developers.
- Participated in sprint planning and retrospectives, contributing to team efficiency.

Junior Software Developer   2019-2020

Banking Solutions Co.

- Assisted in developing banking applications using TypeScript and Angular.
- Worked on improving application performance, achieving a 30% increase in response times.
- Engaged with clients to gather requirements and provide technical support.
- Documented development processes to ensure compliance and ease of maintenance.
- Participated in team meetings to discuss project updates and roadblocks.
- Learned about data security principles and implemented them in projects.

★ ACHIEVEMENTS

- Received 'Rising Star' award for exceptional performance in project contributions.
- Increased efficiency of a payment processing system by 25% through code optimization.
- Successfully led a project to implement new security features, enhancing user trust.
