EXPERTISE SKILLS

- Oil and Gas Inspections
- API Standards
- Team Management
- Safety Compliance
- Equipment Maintenance
- Data Documentation

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Bachelor of Engineering in Mechanical Engineering

MICHAEL ANDERSON

ULTRASONIC TESTING SUPERVISOR

Accomplished Ultrasonic Testing Technician with extensive experience in the oil and gas industry. Recognized for exceptional skills in non-destructive testing methods, ensuring the integrity of critical infrastructure and equipment. Proficient in conducting ultrasonic inspections that comply with industry standards, thereby enhancing operational safety and equipment reliability. Adept at utilizing advanced ultrasonic technology to identify and document defects, contributing to proactive maintenance strategies.

PROFESSIONAL EXPERIENCE

Global Energy Services

Mar 2018 - Present

Ultrasonic Testing Supervisor

- Supervised ultrasonic testing operations for offshore and onshore projects.
- Ensured compliance with API and ASNT standards during inspections.
- Managed a team of technicians to deliver quality testing services efficiently.
- Developed and implemented training programs for staff on ultrasonic techniques.
- Coordinated with project managers to align testing schedules with operational needs.
- Reviewed inspection reports and provided feedback for quality improvement.

Energy Inspection Services

Dec 2015 - Jan 2018

Ultrasonic Testing Technician

- Conducted ultrasonic inspections on pipelines and storage tanks.
- Utilized advanced testing equipment to assess material integrity.
- Documented findings and communicated results to engineering teams.
- Assisted in developing maintenance plans based on inspection outcomes.
- Participated in safety audits and compliance checks.
- Maintained testing equipment and ensured its calibration.

ACHIEVEMENTS

- Led a team that identified critical defects, saving the company \$500,000 in potential downtime.
- Recognized for outstanding leadership in safety and quality assurance.
- Improved inspection efficiency by 30% through process enhancements.
