WORK EXPERIENCE

Lecturer in Mathematics

2020-2023

Summit University

- Designed innovative math curricula, resulting in a 30% increase in student performance on standardized assessments.
- Implemented technology-based teaching methods that enhanced student understanding of complex concepts.
- Conducted workshops for faculty on best practices in math instruction.
- Mentored students in research projects, leading to successful presentations at academic conferences.
- Collaborated with colleagues on interdisciplinary projects, enriching the academic experience.
- Participated in community outreach programs to promote mathematics education among local schools.

Mathematics Instructor

2019-2020

Eastside Community College

- Taught a variety of undergraduate math courses, achieving high student retention rates.
- Developed assessments that effectively measured student understanding and progress.
- Coordinated math tutoring programs that supported struggling students.
- Organized math competitions to promote student engagement and interest in the subject.
- Facilitated study groups that improved overall student performance.
- Participated in curriculum review committees to enhance course offerings and relevance.

ACHIEVEMENTS

- Recognized with the 'Outstanding Educator Award' for contributions to mathematics education in 2020.
- Published articles in mathematics education journals, contributing to academic discourse.
- Secured funding for a math enrichment program for high school students.
