Passionate University Researcher with over 9 years of experience in the field of economics, focusing on labor market dynamics and economic policy analysis. My research aims to understand employment trends and their implications for labor policy development. I have extensive experience in econometric modeling and data analysis, which allows me to provide evidence-based insights to policymakers and stakeholders.

💼 WORK EXPERIENCE

Senior Economist   2020-2023

National Economic Research Institute

- Conducted extensive research on labor market trends and economic policies affecting employment.
- Developed econometric models to forecast employment growth and wage trends.
- Published influential reports that shaped national labor policies.
- Collaborated with government agencies to provide insights on economic issues.
- Presented findings to policymakers, facilitating informed decision-making.
- Supervised a team of junior economists and interns in research projects.

Research Assistant   2019-2020

University of Economic Studies

- Assisted in research projects analyzing the impact of immigration on labor markets.
- Conducted data analysis using statistical software to support research findings.
- Contributed to grant proposals that secured funding for research initiatives.
- Presented research at academic conferences, receiving recognition for quality work.
- Engaged with community organizations to discuss labor market issues.
- Helped mentor undergraduate students in research methods and analysis.

★ ACHIEVEMENTS

- Awarded 'Best Research Paper' for contributions to labor economics.
- Played a key role in a project that influenced national labor policies on minimum wage.
- Published multiple articles in leading economic journals, enhancing academic reputation.
