🔤 LANGUAGES

- English
- Spanish
- French

Innovative Urban Infrastructure Engineer with a focus on smart technologies and data-driven decision-making. With over 9 years of experience in urban planning and infrastructure development, I have successfully led projects that integrate technology to enhance urban mobility and sustainability. My background includes working with government agencies and private sector clients to develop smart city solutions that improve urban living.

💼 WORK EXPERIENCE

Smart City Consultant   2020-2023

Urban Tech Innovations

- Developed smart mobility solutions that reduced traffic congestion by 30% in urban areas.
- Conducted data analysis to inform urban planning decisions and policy recommendations.
- Collaborated with city officials to align technology initiatives with urban development goals.
- Facilitated workshops to educate stakeholders on the benefits of smart city technologies.
- Secured funding for technology integration projects totaling over $1 million.
- Monitored project progress and outcomes, adjusting strategies as necessary for success.

Urban Infrastructure Analyst   2019-2020

City Planning Department

- Analyzed urban infrastructure data to identify areas for improvement in transportation and utilities.
- Assisted in the development of long-term urban plans that incorporated smart technologies.
- Worked with community stakeholders to gather input on urban development projects.
- Prepared reports and presentations for city councils to support policy changes.
- Utilized GIS tools for spatial analysis and mapping of urban infrastructure.
- Participated in public outreach initiatives to raise awareness of urban planning efforts.

⭐ ACHIEVEMENTS

- Successfully implemented a smart traffic management system that improved response times by 40%.
- Awarded 'Innovation in Urban Planning' by the American Planning Association in 2022.
- Conducted a city-wide survey that engaged over 1,000 residents in urban planning discussions.
