

MICHAEL ANDERSON

URBAN MOBILITY COORDINATOR

PROFILE

Dynamic Urban Mobility Manager with extensive expertise in the orchestration of integrated transportation systems that prioritize sustainability and user engagement. Specializes in leveraging advanced analytics and smart technologies to enhance urban transport efficiency. Demonstrates a robust ability to foster partnerships across public and private sectors, driving initiatives that result in significant improvements to mobility frameworks.

EXPERIENCE

URBAN MOBILITY COORDINATOR

Metro Transit Authority

2016 - Present

- Coordinated cross-functional teams to implement multimodal transport solutions.
- Managed community outreach programs to promote alternative transportation methods.
- Utilized data analytics to track and report on mobility usage trends.
- Oversaw the deployment of bike-sharing programs across urban neighborhoods.
- Facilitated partnerships with local businesses to enhance transit accessibility.
- Conducted feasibility studies for new transit routes and services.

TRANSPORTATION PLANNER

City Planning Department

2014 - 2016

- Executed urban transport assessments to identify areas for improvement.
- Collaborated with environmental agencies to promote eco-friendly transport options.
- Prepared and presented mobility plans to city officials and public forums.
- Analyzed survey data to inform transportation policy changes.
- Supported the implementation of smart city initiatives related to mobility.
- Engaged with community stakeholders to gather feedback on transport services.
