ACHIEVEMENTS

- Secured $5 million in funding for a regional transportation improvement project.
- Developed a transportation strategy that increased public transit ridership by 25% within two years.
- Recipient of the Urban Mobility Innovation Award for pioneering sustainable transit solutions.

PROFILE

Dynamic Urban Planning Manager with extensive experience in transportation planning and urban mobility solutions. Expertise in developing strategic frameworks that enhance connectivity and accessibility in urban environments. Proven ability to integrate innovative transportation technologies with urban design to create efficient, sustainable systems. Strong background in stakeholder engagement, facilitating collaborations between government agencies, private developers, and community organizations.

EXPERIENCE

TRANSPORTATION PLANNING MANAGER

City Transport Authority

2016 - Present

- Oversaw the development of city-wide transportation plans to improve public transit access.
- Coordinated with engineers to design road improvements and pedestrian pathways.
- Utilized data analytics to assess transportation patterns and inform planning decisions.
- Engaged with community stakeholders to advocate for inclusive transportation solutions.
- Managed a team of planners and analysts in executing transportation studies.
- Presented findings to city officials and community groups to secure project funding.

ASSISTANT TRANSPORTATION PLANNER

Metro Transit Agency

2014 - 2016

- Conducted feasibility studies for new transit routes and service enhancements.
- Collaborated with urban planners to align transportation and land use strategies.
- Analyzed ridership data to optimize public transport schedules and routes.
- Facilitated public meetings to gather input on transportation initiatives.
- Developed comprehensive reports on transportation trends and recommendations.
- Supported grant applications for transportation improvement projects.
