Versatile User Experience Web Developer with 3 years of experience in the healthcare technology domain. My work focuses on creating user-friendly interfaces for telehealth applications, aiming to enhance patient engagement and satisfaction. With a strong understanding of healthcare regulations and user needs, I am committed to ensuring that digital health solutions are accessible and efficient.

WORK EXPERIENCE

Frontend Developer | HealthTech Innovations   Jan 2022 – Present

- Designed and implemented user interfaces for telehealth platforms.
- Conducted user testing to gather feedback from patients and healthcare providers.
- Collaborated with UX researchers to optimize user flows and interactions.
- Utilized front-end frameworks such as React for efficient development.
- Increased user engagement by 25% through improved interface designs.
- Maintained documentation for developers and stakeholders for future reference.

Web Developer Intern | Digital Health Solutions   Jul 2019 – Dec 2021

- Assisted in the development of a patient management system for healthcare providers.
- Collaborated with designers to create user-friendly web pages.
- Participated in user feedback sessions to gather insights for platform improvements.
- Wrote documentation for end-users to facilitate navigation of the system.
- Enhanced site accessibility to comply with healthcare standards.
- Contributed to the development of a mobile-friendly version of the application.
