

MICHAEL ANDERSON

UI DEVELOPER

PROFILE

Enthusiastic User Interface Web Developer with a strong emphasis on creating intuitive and accessible web experiences. With a background in both computer science and digital marketing, I have a unique perspective on how to design interfaces that not only look great but also drive conversions. My experience includes working with diverse teams in agile environments, where I have honed my ability to translate complex requirements into functional and user-friendly designs.

EXPERIENCE

UI DEVELOPER

Web Solutions Corp.

2016 - Present

- Designed and implemented user interfaces for e-commerce platforms using Angular.
- Enhanced accessibility features, leading to a 20% increase in user engagement.
- Worked closely with product managers to refine user stories for better alignment with business goals.
- Utilized analytics tools to assess user behavior and improve UI/UX design.
- Participated in daily stand-ups and retrospectives to foster team collaboration.
- Developed style guides and documentation for consistent design practices.

JUNIOR WEB DEVELOPER

Innovatech

2014 - 2016

- Contributed to the development of mobile-first websites optimizing for various devices.
- Assisted in debugging and troubleshooting applications to enhance performance.
- Collaborated with graphic designers to execute creative web design concepts.
- Conducted user testing sessions to gather feedback for UI improvements.
- Implemented a new content management system that improved content updates by 35%.
- Gathered metrics to evaluate the effectiveness of design changes.
