

MICHAEL ANDERSON

Web Developer

Motivated User Interface Web Developer with over 4 years of experience specializing in building interactive and visually appealing web applications. I have a solid foundation in front-end technologies and a keen sense of design, allowing me to create websites that are not only functional but also engaging. My experience includes working on various projects, from small business websites to larger corporate applications.

WORK EXPERIENCE

Web Developer

2020-2023

Innovative Web Creations

- Developed client websites using modern frameworks like Bootstrap and jQuery.
- Collaborated with graphic designers to ensure cohesive branding across platforms.
- Performed user testing to identify areas for improvement in UI design.
- Updated and maintained existing websites to enhance functionality.
- Implemented SEO best practices to improve site visibility.
- Assisted in the development of a content management system for easier updates.

Frontend Developer Intern

2019-2020

Creative Edge

- Supported the development of web applications through hands-on coding and design.
- Learned to use version control systems to manage project files.
- Contributed to the redesign of the company website, improving user engagement.
- Conducted research on current design trends to inform project decisions.
- Assisted in writing documentation for project processes and guidelines.
- Participated in team meetings to discuss progress and brainstorm solutions.

ACHIEVEMENTS

- Successfully completed projects that received positive client feedback.
- Contributed to a project that increased client website traffic by 25%.
- Recognized for my attention to detail in design and development tasks.
