SKILLS

- Software validation
- Embedded systems
- Testing methodologies
- Data analysis
- Team collaboration
- Continuous improvement

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER ENGINEERING, UNIVERSITY OF TEXAS, AUSTIN, 2015

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Improved software validation processes, reducing testing time by 20%.
- Received 'Outstanding Performance' award for contributions to software reliability.
- Contributed to a project that enhanced vehicle safety features through software improvements.

Michael Anderson

SOFTWARE VALIDATION ENGINEER

A dynamic Vehicle Validation Engineer with over 6 years of experience in the automotive field, focusing on software validation for vehicle control systems. Expertise in developing and executing validation plans for embedded systems, ensuring optimal functionality and safety. Proficient in using software testing tools and methodologies to validate system performance under various conditions.

EXPERIENCE

SOFTWARE VALIDATION ENGINEER

TechAuto Solutions

2016 - Present

- Developed software validation plans for vehicle control systems.
- Executed tests to ensure software compliance with specifications.
- Utilized automated testing tools for efficiency.
- Collaborated with developers to troubleshoot software issues.
- Documented validation results for quality assurance.
- Participated in software release planning to ensure timely delivery.

VALIDATION ENGINEER

Dynamic Motors Corp.

2014 - 2016

- Conducted validation of embedded systems in vehicles.
- Analyzed test data to identify software performance issues.
- Participated in cross-functional teams for system integration.
- Provided feedback for continuous software improvement.
- Maintained validation documentation for compliance.
- Engaged in ongoing training on software validation techniques.
