EDUCATION

BACHELOR OF ARTS IN ENVIRONMENTAL STUDIES, UNIVERSITY OF OREGON, 2016

ACHIEVEMENTS

- Increased urban composting participation rates by 70% within two years.
- Recognized as a leading educator in urban sustainability by the City Council.
- Secured a grant for \$100,000 to expand composting education in underserved communities.

PROFILE

Accomplished vermicomposting specialist with a strong focus on urban agriculture and community engagement. Expertise in integrating vermicomposting practices within urban environments to facilitate sustainable waste management and food production. Proficient in developing educational programs that empower urban dwellers to adopt composting practices, thereby promoting environmental stewardship. Notable experience in managing city-wide composting initiatives that have successfully transformed organic waste into valuable resources.

EXPERIENCE

URBAN AGRICULTURE COORDINATOR

City Green Initiative

2016 - Present

- Developed and implemented a city-wide vermicomposting program that processed over 1,000 tons of organic waste annually.
- Collaborated with local schools to establish educational composting programs, reaching over 5,000 students.
- Organized community workshops on vermicomposting, increasing neighborhood participation by 50%.
- Engaged with city officials to promote policies supporting urban composting initiatives.
- Utilized social media platforms to raise awareness about composting benefits, achieving a 60% increase in community engagement.
- Conducted research on the impact of vermicomposting on urban soil health and published findings in local journals.

VERMICOMPOSTING EDUCATOR

Green City Workshops

2014 - 2016

- Designed and delivered educational sessions on vermicomposting for diverse community groups.
- Developed instructional materials that simplified complex composting concepts for urban audiences.
- Facilitated hands-on demonstrations, enabling participants to create their own vermicomposting systems.
- Collaborated with local nonprofits to expand outreach and accessibility of composting education.
- Monitored participant feedback to continuously improve workshop content and delivery.
- Participated in community festivals to promote sustainable practices and vermicomposting awareness.
