WORK EXPERIENCE

Vermicomposting Technician

2020-2023

Organic Farming Solutions

- Assisted in the daily operations of a vermicomposting facility, processing organic waste for local farms.
- Monitored compost quality and made adjustments to optimize microbial activity.
- Conducted training sessions for farm staff on vermicomposting best practices.
- Implemented safety protocols to ensure compliance with health regulations.
- Collected data on composting efficiency to inform operational improvements.
- Collaborated with agronomists to evaluate soil health outcomes from vermicomposting.

Sustainability Intern

2019-2020

Green Thumb Initiative

- Supported the implementation of a community-based vermicomposting program.
- Assisted in conducting workshops to educate the public on composting techniques.
- Helped monitor the effectiveness of vermicomposting in improving soil health.
- Participated in data collection and reporting for project outcomes.
- Engaged with community members to promote sustainable practices.
- Contributed to the development of educational materials on vermicomposting.

ACHIEVEMENTS

- Contributed to a 30% increase in soil quality metrics for partner farms utilizing vermicompost.
- Recognized for exceptional contributions during internship with a commendation award.
- Successfully facilitated workshops attended by over 300 participants on composting.
