# MICHAEL ANDERSON

## EQUINE CLINICAL RESEARCH SPECIALIST

Enthusiastic Veterinary Clinical Researcher with a focus on equine health and performance research. With over 8 years of experience in the field, I have developed a solid foundation in clinical trial management and data analysis, particularly in relation to equine athletes. My expertise lies in designing studies that assess the efficacy of nutritional supplements and performance-enhancing therapies for horses.

## **PROFESSIONAL EXPERIENCE**

### **Equine Health Solutions**

*Mar 2018 - Present*

Equine Clinical Research Specialist

- Designed and executed clinical studies on the effects of dietary supplements on equine athletic performance.
- Collaborated with trainers and veterinarians to refine research methodologies.
- Analyzed data using statistical software to assess treatment outcomes.
- Developed comprehensive reports for stakeholders detailing research findings.
- Conducted on-site evaluations and health assessments of participating horses.
- Presented research outcomes at equestrian industry conferences, increasing awareness of findings.

### **Equestrian Veterinary Clinic**

*Dec 2015 - Jan 2018*

Veterinary Research Coordinator

- Coordinated clinical trials aimed at improving equine health and performance.
- Monitored compliance with ethical standards and regulatory requirements.
- Maintained detailed records of study protocols and participant health data.
- Supported the preparation of grant applications for funding research projects.
- Engaged with owners and trainers to facilitate participation in studies.
- Contributed to the development of educational materials for stakeholders.

## **ACHIEVEMENTS**

- Developed a research study that led to the approval of a new dietary supplement for horses.
- Presented findings that influenced industry practices regarding equine nutrition.
- Authored multiple articles in equine health magazines, enhancing public awareness.
