Veterinary Health Program Specialist with a focus on animal health policy and education, bringing over 9 years of experience in developing and managing health programs. Strong analytical skills with a history of utilizing data to drive decision-making and improve animal health standards. Proven track record in collaborating with various stakeholders, including veterinarians, government agencies, and community organizations.

💼 WORK EXPERIENCE

Veterinary Policy Analyst   2020-2023

Public Health Institute

- Analyzed health policies related to animal welfare and public health initiatives.
- Contributed to the development of strategic recommendations for improving veterinary services.
- Collaborated with stakeholders to gather insights and feedback on proposed policies.
- Presented findings to policymakers, influencing legislative changes in animal health.
- Conducted workshops to educate veterinary professionals on regulatory compliance.
- Monitored and assessed the impact of health programs on animal populations.

Program Coordinator for Animal Health   2019-2020

State Department of Health

- Managed statewide initiatives to improve animal health and welfare standards.
- Developed and implemented training programs for veterinary staff on health regulations.
- Coordinated outreach efforts to enhance public awareness of animal health issues.
- Analyzed data to evaluate program effectiveness and inform continuous improvement.
- Collaborated with local animal shelters to promote responsible pet ownership.
- Increased community engagement in health programs through targeted outreach strategies.

★ ACHIEVEMENTS

- Developed a policy framework that improved animal health standards statewide.
- Recognized with 'Outstanding Service Award' for contributions to animal health initiatives.
- Facilitated training sessions that improved compliance rates among veterinary practices by 25%.
