

# MICHAEL ANDERSON

## EMERGENCY VETERINARY TECHNICIAN

### PROFILE

Experienced Veterinary Infection Control Specialist with a strong background in emergency veterinary services. With over 6 years in high-pressure environments, I have honed my skills in rapid assessment and implementation of infection control measures that protect both animals and their caregivers. My expertise lies in developing tailored infection prevention strategies that are vital during crisis situations and in regular practice.

### EXPERIENCE

#### EMERGENCY VETERINARY TECHNICIAN

##### Animal Emergency Center

2016 - Present

- Assisted in triaging emergency cases while maintaining strict infection control protocols under high-stress conditions.
- Implemented a new cleaning schedule that improved the speed of room turnover by 20%.
- Trained new staff in infection prevention techniques specific to emergency care settings.
- Conducted audits of infection control compliance, identifying areas for improvement and providing feedback.
- Developed a quick-reference guide for staff regarding infection control during emergencies.
- Collaborated with veterinarians to create post-emergency care instructions aimed at minimizing infection risks.

#### VETERINARY TECHNICIAN

##### Pet Care Veterinary Services

2014 - 2016

- Implemented infection control practices in daily operations, leading to a 15% reduction in post-surgical infections.
- Participated in the development of a vaccination schedule that improved overall compliance among pet owners.
- Conducted owner education sessions about infection prevention, significantly increasing pet vaccination rates.
- Managed inventory of disinfectants and sterilization tools, optimizing usage and reducing waste.
- Assisted in organizing a community vaccine drive that vaccinated over 300 pets.
- Maintained accurate records of infection control measures, contributing to the clinic's accreditation process.
