Veterinary Infection Control Specialist with extensive experience in large-scale veterinary operations. Over the past 10 years, I have worked in both corporate veterinary settings and non-profit organizations, focusing on developing and enhancing infection control protocols to ensure animal safety and compliance with industry standards. My background includes managing infection control programs in multi-site clinics, where I have successfully implemented uniform procedures that reduced infection rates across the board.

## WORK EXPERIENCE

### Director of Infection Control | Veterinary Care Corporation

Jan 2022 – Present

- Oversaw infection control programs across 15 clinics, achieving a 30% reduction in infection rates within two years.
- Standardized infection control protocols across all locations, ensuring consistent compliance and best practices.
- Led quarterly training sessions for staff, significantly improving knowledge and adherence to infection control measures.
- Collaborated with veterinarians and management to develop strategic plans for infection prevention.
- Conducted regular audits to monitor compliance and identify areas for improvement.
- Presented infection control results to the executive team, highlighting successes and areas for growth.

### Infection Control Consultant | Safe Paws Veterinary Services

Jul 2019 – Dec 2021

- Provided consulting services to veterinary clinics on infection control best practices, improving compliance by 25%.
- Developed tailored infection control plans for individual clinics based on their specific needs.
- Conducted workshops for veterinary staff, focusing on practical infection control strategies.
- Assisted clinics in preparing for accreditation by ensuring they met all infection control standards.
- Evaluated existing protocols and provided recommendations for enhancements.
- Maintained ongoing relationships with clients to monitor progress and adapt strategies as needed.
