EDUCATION

BACHELOR OF SCIENCE IN VETERINARY SCIENCE, UNIVERSITY OF FLORIDA, 2016

ACHIEVEMENTS

- Recognized for outstanding performance in toxicology testing with a 95% accuracy rate.
- Developed a new protocol for identifying common poisons in animals, published in a scientific journal.
- Presented findings at the International Veterinary Toxicology Symposium in 2021.

PROFILE

Enthusiastic Veterinary Laboratory Scientist with 5 years of experience specializing in toxicology and pharmacology. Demonstrated expertise in analyzing samples to determine the effects of various substances on animal health. Strong analytical skills complemented by a solid understanding of laboratory safety and regulatory compliance. Adept at using sophisticated laboratory equipment and software for accurate data collection and analysis.

EXPERIENCE

VETERINARY TOXICOLOGIST

Toxicology Labs LLC

2016 - Present

- Conducted toxicological assessments of samples to identify harmful substances affecting animal health.
- Utilized advanced chromatography techniques to analyze complex samples.
- Collaborated with veterinarians to interpret toxicological data and formulate treatment plans.
- Developed educational materials for veterinarians on recognizing signs of poisoning.
- Participated in research projects aimed at understanding the effects of drugs on various species.
- Maintained laboratory compliance with local and federal regulations.

LABORATORY ASSISTANT

Animal Health Diagnostics

2014 - 2016

- Assisted in preparation and analysis of samples for diagnostic testing.
- Maintained cleanliness and organization of the laboratory environment.
- Supported toxicology screenings and recorded findings for further analysis.
- Managed inventory of laboratory supplies and assisted in ordering new materials.
- Documented test procedures and results to ensure accuracy and traceability.
- Contributed to team meetings with insights from laboratory findings.
