EXPERTISE SKILLS

- Research funding
- Teaching
- Antimicrobial resistance
- Pathogen biology
- Grant writing
- Mentoring

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- PhD in Veterinary Microbiology, National Veterinary Institute

MICHAEL ANDERSON

ASSOCIATE PROFESSOR OF VETERINARY MICROBIOLOGY

Dedicated Veterinary Microbiologist with over 12 years of experience in academia and research. Passionate about advancing veterinary science through rigorous research and education. Expertise in bacterial pathogenesis and antimicrobial resistance, with a focus on developing strategies to combat these critical issues in veterinary medicine. Proven ability to secure research funding and collaborate with interdisciplinary teams.

PROFESSIONAL EXPERIENCE

State University Veterinary School

Mar 2018 - Present

Associate Professor of Veterinary Microbiology

- Developed and taught undergraduate and graduate courses in veterinary microbiology.
- Supervised student research projects, guiding them to successful outcomes.
- Secured over \$500,000 in research grants focused on antimicrobial resistance.
- Published over 20 research papers in high-impact journals on pathogen biology.
- Collaborated with industry partners to enhance research relevance.
- Organized international conferences on veterinary microbiology and infectious diseases.

Global Animal Health Institute

Dec 2015 - Jan 2018

Research Scientist

- Investigated mechanisms of bacterial resistance to antibiotics in livestock.
- Developed innovative methodologies for studying pathogen-host interactions.
- Presented research findings at international conferences, increasing collaboration opportunities.
- Conducted workshops on antimicrobial stewardship for veterinary professionals.
- Mentored junior researchers and interns in laboratory techniques and data analysis.
- Contributed to policy recommendations on antibiotic use in veterinary practices.

ACHIEVEMENTS

- Recipient of the 'Outstanding Educator Award' for excellence in teaching.
- Secured a National Science Foundation grant for groundbreaking research.
- Published a seminal paper on antibiotic resistance in veterinary medicine.
