Compassionate Veterinary Parasitologist with over 6 years of experience specializing in the care and treatment of parasitic infections in shelter animals. My work is dedicated to improving the health and welfare of homeless pets through effective parasitic control measures. I have a strong commitment to public health and animal welfare, combining my clinical skills with a passion for community outreach.

WORK EXPERIENCE

Veterinary Parasitologist | City Animal Shelter

Jan 2022 – Present

- Diagnosed and treated parasitic infections in shelter animals.
- Implemented treatment protocols that reduced parasite prevalence by 60%.
- Educated shelter staff and volunteers on parasite management.
- Collaborated with rescue organizations to improve animal health outcomes.
- Organized community events to promote responsible pet ownership.
- Maintained detailed records of treatment and outcomes for over 300 animals.

Veterinary Intern | Compassion Animal Clinic

Jul 2019 – Dec 2021

- Assisted in treating parasitic infections in shelter and rescue animals.
- Conducted fecal examinations and diagnostic tests under supervision.
- Engaged with the community to promote parasite prevention awareness.
- Documented patient interactions and lab results accurately.
- Supported veterinarians in surgical procedures related to parasitic removal.
- Participated in educational outreach programs for pet owners.
