MICHAEL ANDERSON

Veterinary Pathologist

I am a detail-oriented Veterinary Pathologist with a focus on regulatory pathology, possessing over 9 years of experience in the pharmaceutical industry. My expertise includes evaluating the safety and efficacy of veterinary pharmaceuticals through rigorous pathology assessments. I have been involved in preclinical studies, collaborating with cross-functional teams to ensure compliance with regulatory standards.

WORK EXPERIENCE

Veterinary Pathologist   2020-2023

Pharmaceutical Animal Health Company

- Conducted pathological evaluations for over 100 preclinical studies annually, ensuring compliance with GLP standards.
- Collaborated with research teams to assess the safety profiles of new veterinary drugs.
- Developed pathology reports that informed drug development decisions and regulatory submissions.
- Provided training to new staff on pathology assessment methodologies.
- Participated in health and safety audits to ensure laboratory compliance.
- Presented findings at internal and external meetings to support product development.

Pathology Associate   2019-2020

Veterinary Research Institute

- Assisted in the evaluation of veterinary drug safety and efficacy through pathological assessments.
- Conducted histopathological examinations and documented findings for regulatory compliance.
- Collaborated with toxicologists to interpret data from preclinical studies.
- Engaged in research projects focused on the development of new veterinary therapeutics.
- Contributed to the preparation of regulatory submissions for veterinary products.
- Participated in training sessions to enhance team knowledge on regulatory pathology.

ACHIEVEMENTS

- Contributed to the approval of three new veterinary drugs through comprehensive pathology assessments.
- Presented research at international conferences, enhancing the company's visibility in veterinary pharmacology.
- Developed a training program adopted by the organization for new employees in pathology assessment.
