- Project Management
- Data Analysis
- Community Engagement
- Public Health Policy

LANGUAGES

- English
- Spanish
- French

Veterinary Public Health Specialist with 9 years of experience in risk assessment and disease prevention strategies for both domestic and wild animal populations. Strong background in conducting field investigations and collaborating with public health teams to mitigate zoonotic disease outbreaks. Adept at using data analysis to inform decision-making and improve health outcomes.

💼 WORK EXPERIENCE

Disease Control Officer   2020-2023

State Public Health Department

- Led investigations into zoonotic disease outbreaks to identify sources and transmission routes.
- Coordinated with wildlife agencies to assess health risks in wild animal populations.
- Developed contingency plans for emergency responses to disease outbreaks.
- Implemented monitoring programs to track disease prevalence in specific regions.
- Trained local health officials on managing animal-related health issues.
- Utilized statistical tools to analyze outbreak data and recommend interventions.

Veterinary Health Consultant   2019-2020

International Health Organization

- Provided expertise on animal health issues impacting public health globally.
- Conducted assessments of veterinary practices in various countries.
- Developed guidelines for improving animal health standards.
- Collaborated with local governments to enhance public health strategies.
- Facilitated workshops on zoonotic disease prevention for veterinarians.
- Monitored health outcomes and provided recommendations for program improvements.

★ ACHIEVEMENTS

- Successfully reduced zoonotic disease transmission rates by 35% in targeted areas.
- Awarded the Public Health Achievement Award for outstanding contributions to animal health.
- Published guidelines used by veterinary professionals across multiple states.
