

MICHAEL ANDERSON

Large Animal Veterinary Surgeon

- San Francisco, CA
- (555) 234-5678
- michael.anderson@email.com

Experienced and dedicated Veterinary Surgeon with a focus on large animal medicine and surgery. Over the past 9 years, I have developed my skills in treating livestock and equine patients in both rural and urban settings. My passion for agriculture and animal welfare drives my commitment to providing the highest quality care to large animals.

WORK EXPERIENCE

Large Animal Veterinary Surgeon | Farm and Ranch Veterinary Services

Jan 2022 – Present

- Conducted health assessments and surgical procedures on over 200 large animals annually.
- Implemented herd health management programs that increased productivity by 25%.
- Collaborated with farmers to provide education on animal nutrition and care.
- Trained staff on best practices for handling and treating large animals.
- Managed emergency cases in the field, providing timely interventions.
- Developed a vaccination program that improved herd immunity significantly.

Veterinary Intern - Large Animals | Rural Animal Care Clinic

Jul 2019 – Dec 2021

- Assisted in routine examinations and surgical procedures for livestock and equines.
- Learned to conduct health assessments under the supervision of senior veterinarians.
- Participated in community education events focused on large animal care.
- Maintained accurate medical records and assisted with data entry for patient management.
- Engaged in hands-on training for animal handling and restraint techniques.
- Shadowed veterinarians in the field, gaining practical experience in emergency situations.
