MICHAEL ANDERSON

ASSOCIATE PROFESSOR OF VETERINARY TOXICOLOGY

Veterinary Toxicologist with a decade of experience in academia and clinical settings, specializing in the effects of environmental toxins on animal health. Strong background in laboratory research, toxicological assessments, and public education. Adept at interpreting complex data and collaborating with interdisciplinary teams to achieve impactful results. Proven ability to develop educational materials and workshops aimed at informing veterinarians and the public about the risks of toxic exposure.

PROFESSIONAL EXPERIENCE

University of Wisconsin-Madison

Mar 2018 - Present

Associate Professor of Veterinary Toxicology

- Taught veterinary toxicology courses to graduate students, enhancing curriculum with current research.
- Conducted research on heavy metal toxicity in companion animals, resulting in significant findings.
- Supervised graduate research projects, fostering the next generation of toxicologists.
- Organized annual workshops on environmental toxins and animal welfare.
- Published research in top-tier veterinary journals, raising awareness of toxicology issues.
- Collaborated with local animal shelters to provide educational resources on toxin prevention.

Animal Poison Control Center

Dec 2015 - Jan 2018

Veterinary Toxicologist

- Managed a high-volume toxicology hotline, providing immediate assistance to pet owners.
- Evaluated and documented over 500 poisoning cases per year, improving response strategies.
- Worked collaboratively with veterinarians to refine treatment protocols for various toxins.
- Developed a comprehensive database for tracking poisoning trends and outcomes.
- Engaged in public speaking events to educate on toxin risks and safe practices.
- Provided expert testimony in veterinary legal cases involving toxic exposure.

ACHIEVEMENTS

- Received the 'Excellence in Teaching Award' for outstanding classroom engagement.
- Secured a grant for research on environmental toxins affecting wildlife.
- Developed a community outreach program that increased public awareness of pet safety by 30%.
