ACHIEVEMENTS

- Increased average student test scores in mathematics by 25% over two academic years.
- Recognized for excellence in teaching by receiving the 'Innovative Educator Award' in 2019.
- Successfully led a project to implement a digital learning platform that improved student engagement by 40%.

PROFILE

Results-driven Virtual Teacher with over 8 years of experience in delivering high-quality education to diverse student populations. Expertise in teaching mathematics and science through engaging, technology-enhanced methods. Committed to fostering critical thinking and problem-solving skills among students while adapting instruction to meet varied learning styles. Strong background in data analysis to track student progress and improve instructional strategies.

EXPERIENCE

ONLINE MATH AND SCIENCE TEACHER

Virtual Academy of Learning

2016 - Present

- Delivered live and recorded math and science lessons to students in grades 6-12.
- Utilized interactive tools like simulations and virtual labs to enhance understanding.
- Monitored student progress through regular assessments and provided timely feedback.
- Collaborated with parents and guardians to support student learning at home.
- Organized virtual science fairs that encouraged student creativity and critical thinking.
- Implemented differentiated instruction techniques to cater to diverse learners.

EDUCATION TECHNOLOGY CONSULTANT

EdTech Innovations

2014 - 2016

- Consulted with schools on integrating technology into their curriculum effectively.
- Provided training sessions for educators on using digital tools for teaching.
- Developed a resource bank of online teaching strategies and materials for educators.
- Monitored and evaluated the impact of technology on student learning outcomes.
- Facilitated community workshops to raise awareness about online education resources.
- Supported the implementation of a new Learning Management System across multiple schools.
