Michael Anderson

CONSTRUCTION TRAINING SUPERVISOR

Experienced Vocational Training Mentor with over 15 years in the construction industry, specializing in training skilled tradespeople. My comprehensive knowledge of construction practices and safety protocols enables me to effectively prepare trainees for a successful career in the field. I have developed and implemented training programs that address the specific needs of apprentices and journeymen, ensuring they possess the necessary skills to excel.

EXPERIENCE

CONSTRUCTION TRAINING SUPERVISOR

Build Smart Construction

2016 - Present

- Designed and implemented training programs for over 400 construction workers each year.
- Conducted safety training sessions, resulting in a 50% reduction in workplace accidents.
- Developed competency assessments to measure trainee progress and program effectiveness.
- Collaborated with project managers to align training objectives with job site requirements.
- Facilitated on-the-job training, allowing apprentices to gain hands-on experience under supervision.
- Mentored new trainers, enhancing their instructional delivery and engagement techniques.

VOCATIONAL INSTRUCTOR IN CONSTRUCTION TRADES

City Trade School

2014 - 2016

- Taught construction techniques and safety protocols to vocational students in a classroom setting.
- Developed lesson plans that integrated practical exercises with theoretical knowledge.
- Organized field trips to job sites to provide students with real-world industry exposure.
- Evaluated student performance and provided actionable feedback for improvement.
- Promoted a culture of safety and quality through hands-on training practices.
- Participated in industry conferences to stay updated on trends and best practices.
