EDUCATION

**BACHELOR OF SCIENCE IN
INFORMATION SECURITY, STATE
UNIVERSITY**

ACHIEVEMENTS

- Improved security posture resulting in a 50% decrease in security incidents.
- Developed a comprehensive training program that enhanced staff awareness by 60%.
- Successfully led a team that achieved ISO 27001 certification.

PROFILE

With a robust background in vulnerability analysis spanning over 8 years, I specialize in the healthcare sector where cybersecurity is of utmost importance. My journey began as a junior analyst, quickly advancing to senior roles due to my dedication to protecting sensitive patient data. I have extensive experience with security frameworks such as HIPAA and HITECH, ensuring compliance while implementing proactive security measures.

EXPERIENCE

SENIOR VULNERABILITY ANALYST

HealthSecure Inc.

2016 - Present

- Led vulnerability assessments on healthcare applications, ensuring compliance with HIPAA regulations.
- Implemented OWASP ZAP for web application security testing, identifying critical vulnerabilities.
- Developed a risk management framework that decreased vulnerabilities by 30%.
- Conducted training sessions for staff on cybersecurity practices, increasing awareness significantly.
- Collaborated with development teams to integrate security in the software development lifecycle.
- Generated executive reports on security risks and remediation progress.

VULNERABILITY ANALYST

MediTech Solutions

2014 - 2016

- Executed regular vulnerability scans using Nessus to identify security loopholes in systems.
- Worked closely with IT staff to remediate vulnerabilities, resulting in a 20% reduction in risks.
- Analyzed security incidents to enhance threat detection capabilities.
- Created and maintained documentation of security policies and procedures.
- Participated in security audits, contributing to compliance with federal regulations.
- Presented vulnerability findings to management, driving security improvements.
