

Michael ANDERSON

LEAD VULNERABILITY ANALYST

As an accomplished Vulnerability Analyst with over 7 years of experience in the telecommunications industry, I have dedicated my career to enhancing the security of communication networks. My journey began as a network security engineer, evolving into a specialized role where I focus on identifying vulnerabilities in telecom infrastructures.

SKILLS

- Network Security
- Vulnerability Assessment
- Nessus
- Wireshark
- Security Protocols
- Compliance Standards

LANGUAGES

- English
- Spanish
- French

EDUCATION

BACHELOR OF SCIENCE IN NETWORK SECURITY, TECH INSTITUTE

ACHIEVEMENTS

- Achieved a 40% reduction in vulnerabilities through effective security measures.
- Recognized for excellence in security assessments and audits.
- Contributed to the company-wide initiative that resulted in enhanced customer data protection.

WORK EXPERIENCE

LEAD VULNERABILITY ANALYST

Telecom Secure

2020 - 2025

- Conducted vulnerability assessments on telecom networks, ensuring compliance with industry regulations.
- Utilized Nessus and Wireshark for in-depth network analysis and threat detection.
- Developed and implemented security protocols that reduced vulnerabilities by 40%.
- Collaborated with network engineers to strengthen the security framework.
- Provided training to staff on emerging threats and security best practices.
- Prepared comprehensive reports for management on vulnerability status and remediation efforts.

NETWORK SECURITY ENGINEER

ConnectPlus

2015 - 2020

- Performed regular vulnerability scans on network infrastructures, identifying critical vulnerabilities.
- Worked with security teams to implement solutions that improved system resilience.
- Analyzed security incidents to refine threat detection capabilities.
- Maintained documentation of security policies and procedures.
- Participated in security audits, ensuring compliance with industry standards.
- Presented findings to stakeholders, contributing to security investment decisions.
