I am a proactive Vulnerability Management Engineer with over 7 years of experience focusing on enterprise security solutions. My background includes extensive work in network security and cloud environments, where I have honed my skills in vulnerability identification, risk assessment, and remediation planning. I began my career as a network technician, quickly advancing to roles that allowed me to specialize in security.

SKILLS

- Vulnerability Management
- Cloud Security
- Risk Assessment
- AWS Inspector
- Azure Security Center
- Compliance

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION SECURITY, UNIVERSITY OF GHI, 2015

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Achieved a 60% reduction in vulnerability remediation time through process improvements.
- Recognized for outstanding contributions to cloud security initiatives.
- Obtained a Certified Information Security Manager (CISM) certification in 2022.

EXPERIENCE

VULNERABILITY MANAGEMENT ENGINEER

CloudSecure Inc.

2016 - Present

- Managed vulnerability assessments for cloud and on-premises environments, identifying potential risks.
- Utilized AWS Inspector and Azure Security Center to perform comprehensive security evaluations.
- Collaborated with IT teams to develop remediation strategies, reducing critical vulnerabilities by 45%.
- Conducted training for technical staff on cloud security best practices.
- Developed reports and dashboards to communicate vulnerability status to stakeholders.
- Participated in security audits to ensure compliance with industry standards.

NETWORK SECURITY SPECIALIST

CyberDefense Solutions

2014 - 2016

- Performed vulnerability scans and assessments on network infrastructure, ensuring security compliance.
- Assisted in the implementation of security policies and procedures across the organization.
- Monitored network traffic and responded to security incidents in real-time.
- Provided insights on improving network security based on assessment findings.
- Developed and maintained documentation for compliance audits.
- Engaged with cross-functional teams to promote security awareness initiatives.
