

MICHAEL ANDERSON

Project Manager, Waste Management Solutions

Experienced Waste Management Consultant with a solid foundation in environmental engineering and project management. Expertise in designing and implementing waste management systems that enhance operational efficiency and comply with environmental regulations. Proven ability to manage large-scale waste projects from conception through execution, ensuring adherence to timelines and budgets. Skilled in conducting feasibility studies and preparing technical reports that inform decision-making.

EDUCATION

Bachelor of Science in Environmental Engineering

University of Michigan
2016-2020

SKILLS

- environmental engineering
- project management
- feasibility studies
- technical reporting
- stakeholder collaboration
- compliance

LANGUAGES

- English
- Spanish
- French

WORK EXPERIENCE

Project Manager, Waste Management Solutions

2020-2023

Innovative Waste Engineering

- Managed the development of waste management systems for commercial clients, ensuring compliance with environmental regulations.
- Conducted feasibility studies to assess the viability of proposed waste management solutions.
- Prepared technical reports and presentations for stakeholders detailing project progress and outcomes.
- Coordinated with engineering teams to design efficient waste handling systems.
- Oversaw project budgets and timelines, ensuring successful project delivery.
- Engaged with clients throughout project life cycles to address concerns and provide updates.

Environmental Engineer

2019-2020

Green Solutions Engineering

- Conducted site assessments to evaluate environmental impacts of waste management practices.
- Designed waste treatment systems that optimize resource recovery and minimize waste.
- Collaborated with regulatory agencies to ensure compliance with environmental standards.
- Developed training programs for staff on environmental compliance and waste management.
- Monitored project implementation to ensure adherence to quality and safety standards.
- Provided technical support to clients on waste management best practices.

ACHIEVEMENTS

- Successfully managed a \$2 million waste management project that improved efficiency by 50%.
- Recognized for excellence in project management by the Engineering Society in 2023.
- Developed a waste treatment system that reduced hazardous waste by 60% for a major client.
