

Michael ANDERSON

TECHNOLOGY INTEGRATION ANALYST

Innovative Waste Operations Analyst with a focus on integrating technology within waste management practices. Possesses a strong foundation in environmental science paired with expertise in data analytics and smart waste solutions. Proven ability to lead projects that leverage technology to streamline waste operations, reduce costs, and enhance sustainability outcomes. Skilled in engaging with stakeholders to develop customized solutions that meet specific organizational needs.

SKILLS

- technology integration
- data analysis
- project leadership
- stakeholder engagement
- performance metrics
- market research

LANGUAGES

- English
- Spanish
- French

EDUCATION

**BACHELOR OF SCIENCE IN ENVIRONMENTAL ENGINEERING,
GEORGIA INSTITUTE OF TECHNOLOGY**

ACHIEVEMENTS

- Successfully launched an IoT waste management project that reduced costs by 25%.
- Recognized as a top intern for contributions to innovative recycling solutions.
- Developed a proposal that secured \$50,000 in funding for technology projects.

WORK EXPERIENCE

TECHNOLOGY INTEGRATION ANALYST

SmartWaste Technologies

2020 - 2025

- Led the implementation of IoT solutions for real-time waste monitoring.
- Analyzed data from smart bins to optimize collection routes and schedules.
- Collaborated with software developers to enhance waste management applications.
- Conducted training for staff on new technologies and systems.
- Developed performance metrics to measure technology effectiveness.
- Engaged with clients to customize solutions based on their waste profiles.

WASTE OPERATIONS INTERN

Recycling Innovations

2015 - 2020

- Assisted in the analysis of waste processing data for operational insights.
- Supported the development of a mobile app for waste tracking.
- Participated in pilot projects to test new recycling technologies.
- Gathered feedback from users to improve application functionality.
- Conducted market research on emerging waste management technologies.
- Prepared presentations on findings for internal stakeholders.
