WORK EXPERIENCE

Emergency Response Coordinator

2020-2023

International Red Cross

- Led rapid assessments of water and sanitation needs in disaster-affected areas.
- Coordinated logistics for the distribution of water purification supplies.
- Trained local volunteers in emergency sanitation practices.
- Developed response plans to address immediate water access challenges.
- Established partnerships with local NGOs for effective service delivery.
- Monitored and evaluated the impact of emergency interventions.

Sanitation Officer

2019-2020

Oxfam

- Implemented sanitation solutions in refugee camps to improve hygiene conditions.
- Conducted community engagement sessions to promote safe hygiene practices.
- Monitored water quality and sanitation facilities in temporary settlements.
- Collaborated with health teams to manage waterborne disease outbreaks.
- Facilitated training for staff on sanitation and hygiene standards.
- Reported on project progress to stakeholders and donors.

ACHIEVEMENTS

- Improved access to safe water for over 300,000 disaster-affected individuals.
- Received commendation for excellence in humanitarian service from the UN.
- Successfully trained over 500 community members in emergency sanitation practices.
