MICHAEL ANDERSON

SMART WATER TECHNOLOGY MANAGER

Dynamic Water Distribution Manager with a focus on innovative technology integration and over 10 years of experience in the water sector. Expertise includes the application of smart water technologies to optimize distribution networks and reduce operational costs. Proven ability to lead teams through significant technological transitions while maintaining service excellence. Skilled in stakeholder engagement and fostering partnerships that enhance community trust and support.

PROFESSIONAL EXPERIENCE

Innovative Water Solutions

Mar 2018 - Present

Smart Water Technology Manager

- Implemented IoT solutions to monitor and manage water distribution systems in real-time.
- Conducted data analysis to identify trends and optimize resource allocation.
- Collaborated with IT teams to enhance cybersecurity measures for water infrastructure.
- Trained staff on the use of new technologies to improve operational efficiency.
- Engaged with community stakeholders to promote new initiatives.
- Monitored compliance with environmental regulations and standards.

City of Lakeview

Dec 2015 - Jan 2018

Distribution Operations Coordinator

- Managed daily operations of the water distribution system serving 200,000 residents.
- Developed and implemented standard operating procedures for maintenance and repairs.
- Coordinated with external contractors for infrastructure improvement projects.
- Analyzed water quality data to ensure compliance with health regulations.
- Facilitated customer service improvements through enhanced communication protocols.
- Participated in emergency response planning for water supply disruptions.

ACHIEVEMENTS

- Recognized for successful implementation of a smart water management system.
- Achieved a 25% reduction in operational costs through technology integration.
- Received the 'Innovator of the Year' award from the Water Technology Association.
