# MICHAEL ANDERSON

## URBAN WATER GIS SPECIALIST

Strategic Water GIS Analyst with a strong foundation in urban planning and environmental policy analysis. Expertise in employing GIS technology to inform water management decisions and enhance urban sustainability. Proficient in spatial data analysis, with a focus on integrating demographic and environmental data to identify trends and inform resource allocation. Skilled in engaging with community stakeholders and facilitating discussions around water equity and access.

## **PROFESSIONAL EXPERIENCE**

### **City Planning Department**

*Mar 2018 - Present*

Urban Water GIS Specialist

- Executed GIS analyses to support urban water resource planning.
- Collaborated with city officials to develop sustainable water policies.
- Conducted public outreach to educate residents on water issues.
- Analyzed demographic data to assess water access disparities.
- Utilized mapping tools to visualize water distribution networks.
- Prepared comprehensive reports for city council presentations.

### **Environmental Consulting Group**

*Dec 2015 - Jan 2018*

GIS Technician

- Supported water quality monitoring projects through GIS mapping.
- Assisted in data collection and analysis for environmental assessments.
- Maintained geospatial datasets for ongoing monitoring initiatives.
- Generated maps to illustrate findings for client reports.
- Collaborated with interdisciplinary teams to achieve project goals.
- Engaged in fieldwork to collect and validate spatial data.

## **ACHIEVEMENTS**

- Improved community water access by implementing targeted policies.
- Led a project that secured a grant for sustainable water initiatives.
- Presented findings at the National Urban Water Conference.
