SKILLS

- water quality monitoring
- GIS analysis
- environmental regulations
- community engagement
- project management
- data visualization

EDUCATION

BACHELOR OF SCIENCE IN ENVIRONMENTAL SCIENCE, UNIVERSITY OF FLORIDA, 2016

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Improved water quality monitoring processes, resulting in a 20% increase in compliance.
- Recognized for contributions to successful water conservation campaigns.
- Presented findings at regional environmental conferences.

Michael Anderson

WATER QUALITY GIS ANALYST

Detail-oriented Water GIS Analyst with a profound understanding of hydrological systems and their interaction with urban environments. Adept in employing GIS tools to monitor and analyze water quality, ensuring compliance with environmental regulations. Committed to enhancing public health through effective water management practices and data-driven decision-making. Demonstrates a strong ability to communicate complex scientific data to non-technical stakeholders, facilitating informed community engagement.

EXPERIENCE

WATER QUALITY GIS ANALYST

Clean Water Coalition

2016 - Present

- Monitored water quality data using GIS tools to ensure regulatory compliance.
- Conducted spatial analysis of water pollution sources.
- Collaborated with environmental scientists to develop remediation strategies.
- Engaged with community members to promote water conservation practices.
- Prepared detailed reports for regulatory agencies.
- Utilized QGIS for data management and visualization.

GIS INTERN

Water Resource Management Agency

2014 - 2016

- Assisted in data collection and analysis for water resource projects.
- Supported the development of GIS maps for public outreach.
- Conducted field surveys to gather spatial data.
- Maintained geospatial databases for ongoing projects.
- Collaborated with senior analysts on project deliverables.
- Participated in community workshops to educate the public on water issues.
